CLEANING UP OUR TOYS

Cleanliness is:

★ Washing your hands before you eat or touch food.
★ Having a shower, bath or a wash so that your body is clean.
★ Flushing the toilet and leaving it clean and tidy for the next person who uses it.
★ Washing your hands after going to the toilet.
★ Cleaning up food that you have dropped or spilled.
★ Putting things away when you have finished using them.

LEARNING OBJECTIVES:
To know how to perform simple cleaning tasks.

Suggested Resources:
Choose a selection of things that need cleaning in the classroom, e.g. plastic toys, classroom chairs, washable cuddly toys. Create a washing line outside with pegs. You will also need soapy water and cleaning cloths and brushes.

Script:
“Who can remember what we learned last week about how to wash our hands properly?” Give the class time to tell you what they learned.

“It is also important to keep our classroom and equipment clean.”
Demonstrate some of the following procedures:
Cleaning the plastic toys with soapy water and a brush, using a cloth to dust the book case.
Washing a cuddly toy and hanging it on the line to dry, sweeping up outside using dust pans, brushes and brooms.

Washing your hands before you eat or touch food.
Having a shower, bath or a wash so that your body is clean.
Flushing the toilet and leaving it clean and tidy for the next person who uses it.
Washing your hands after going to the toilet.
Cleaning up food that you have dropped or spilled.
Putting things away when you have finished using them.

Character Coaching

Guidance:
Remember to take your time and make sure you’ve cleaned properly.

Meaningful Praise:
You’ve really cleaned this area, it’s spotless!

Correction:
Oops! I can still see some bits that aren’t clean yet. Have another go and try to make it spotless.
