

# IT'S NOT FAIR / FAIR SHARES

## SESSION B

### LEARNING OBJECTIVES:

**To be able to share our message of fairness with others.**

#### Script:

“Who can remind me of what happened in our last lesson about fairness? It is so important to understand fairness that we are going to teach all of the children in our school all about it. Today we are going to learn the song I played for you last week and then perform it to the rest of the school in the next assembly.”

#### Suggested Resources:

<https://youtu.be/YIYM9OMn30w> [available 03/15]

Words from the song typed up, enlarged and printed out for the children to see. Alternatively, have them prepared on a PowerPoint. Even if the children are unable to read all of the words, they may support some with learning the song.

#### Suggested Activities:

Play the song through for the children and then a second time – pointing to the words as it is played. Now play ‘repeat after me’ – say each line aloud to the children and ask them to repeat the line after you. Play the song through again, encouraging the children to join in.

(Note: this may need to be rehearsed a number of times until the children know it well enough to perform.)

#### Plenary:

Bring in another class for the children to perform to.

FAIRNESS

R

### Character Coaching

#### Meaningful Praise:

We have learned an important message about fairness and it is only fair that we share this message with the rest of the children in our school.
