

Edgar and the Virtue of Generosity

Edgar struggles with breathing fire. On a few occasions, during the clip, Edgar's problem causes damage as he struggles to contain his excitement. Edgar's friend, Ava, recognises Edgar's problem and is empathetic towards him. She bakes him a Christmas pudding to put his fire breathing to good use, showing just how much she cares about Edgar. With your child, discuss how people experience different problems. Explain that we can help people experiencing problems. Ask your child to identify a problem one of their friends or family members has and how they could help solve the problem through the gift of giving.

Friend/Family Member's Name:

How long have you known them?

Their problem:

If you could give them any gift in the world to help them with their problem, what would it be? Draw your gift below and label explaining how it would help them.

If you were to give this gift to them, how would this make them feel?

How would it make you feel giving this gift?
