

HOW WOULD YOU HELP?

SESSION B

LEARNING OBJECTIVES:

To be able to think about ways that we can help others by raising awareness.

Script:

Remind children of the work undertaken last week.
“Today children – we will be focusing on three of the images that we looked at last week and taking action to help.”

Suggested Resources:

Images from last week and information about charities/organisations that support these causes (you may want children to research the charities themselves).

Suggested Activities:

Children choose the image that they would like to work on – try and get an even distribution of pupils if possible. Ask children to read through the information given to them about the organisation/charity and to agree on one way that they could help this organisation. Children can then begin to plan this as a group. They must make clear, detailed notes on what they decide.

Plenary:

Each group to feed back to whole class – show image, talk about charity/organisation and their proposed action. Explain to children that their ideas will be passed on to the School Council in an effort to get the whole school to take action.

Character Coaching

Meaningful Praise:

Thank you for your helpfulness in sharing your ideas with others. What impact did you notice when you shared your ideas?

Guidance:

When you work as a group it will be helpful to make sure you listen to everyone’s opinion.

Now that you have finished, look around to see who might need your help.

Correction:

You need to re-read the information about the charity so that you can give them the help that they need.
