♡♡ Thank you! I don't know what we would do were we would be without you amazing super heros. Thank you for all the hard work and all the sacrifices you made and still make. The NHS is a hero for all of us people need to be aware of what amazing things you do, people need to be more appreciative. Without you I I don't even think I would be here. I didn't even realise all these heartwarming things you do before all this happened, before this world wide pandemic hit the world. We need more people like you in the world. I could go all day saying thank you but that wouldn't be enough either. I'm very thankful for all the things you do and for always helping people fight illnesses to survive. All the staff are heros along with all the other dedicated volunteers. You have helped millions of people for over 70 YEARS. To help others your bravely putting yourself at risk to help people so they can go home to live a healthy life with their vulnerable family members. All these illnesses and viruses are deadly but that doesn't stop you fighting on with determination in all that you do. Windows are filled with posters and rainbows about the heroic NHS spreading positivity. People are emotionally clapping to spread gratitude, knowing that you are there alleviates my and everyone elses fears and inspires us to become astonishing super heros like YOU THE AMAZING, HEROIC, BRAVE, ASTONISHING NHS.
