Dear Health Care Workers,

My name is Nethaya De Mel. I'd like to give all my respect and gratitude to health care workers who are working tirelessly on the frontline and to leave their own families behind to care for people in need in the fight against Coronavirus.

You have inspired me to continue being resilient and to stay determined like the care workers are working everyday to make a difference in these unprecedented and challenging times. You stay dignified by staying calm and make continuous improvement to keep the service users safe during this crisis.

Thank you for selflessly volunteering to go the extra mile, to take extra shifts and for showing such great compassion. Thank you for everything you have done and continue to do. Thank you for carrying this heavy burden with such pride. I can't imagine how hard it must be to wear the full PPE day in and day out in order to keep yourself and others safe. I find wearing a face mask annoying so I can't even comprehend what it must be like wearing all of that. I take my hat off to you!

We all know that we face more difficult times ahead and I know you as well as your families have been impacted by the measures taken to reduce the spread of Coronavirus. As a way of appreciation I have persuaded my family members to clap for workers every Sunday.

Thank You. From, Nethaya De Mel

Year 6

THANK
YOU
