

TY

Dear Midwives,

I would like to thank all the midwives,
For helping the community and welcoming new lives.
You've helped mothers stop their sadness,
And changed it into a bright new happiness.
You should know you've really helped us all,
Without us, even giving you a call.
You put our babies in your care,
To find this kindness is so rare.
You've inspired me to become a copy of you,
Because of all the lovely things that you do.
We know you'll risk your health everyday,
Untill this NASTY virus goes away.

Thank You. From, Aunmise (SNB)
